

We have partnered with RevUp to offer you a new care management and wellness program.

RevUp is designed to help you stay healthy at home and keep your doctor better aware of how you're doing.

With RevUp, we can monitor your health at home and support you between visits to your doctor and, in some cases, reduce the amount of in-person care you need.

As your physicians, we are here for you - in the office and at home - and our goal is to keep you as healthy as possible.

RevUp

How to Enroll

Talk to your doctor to see if you are eligible for RevUp.

You may receive a call from RevUp directly to help you enroll. You may also begin your program by calling (847) 982-9988 or emailing support@mdrevolution.com.

RevUp:
A New Program
to Keep You
Healthy at
Home

partner 

RevUp supports you at home with a team of coaches and nurses so you can focus on what's important: life.

Program Highlights

The RevUp program is flexible and customized for your health situation and includes:

- Contact with a health coach 24/7 when you need it
- Increased sense of security to live independently while being supported by licensed health professionals
- Peace of mind for your family and friends, knowing you are monitored at home
- More control over your own health journey and improved results

The RevUp Care Hub

The RevUp Care Hub is an easy-to-use device your doctor may order for you connects to your health coach and to remote monitoring devices like a blood pressure cuff, scale and pulse oximeter, and shares data with your health coach in real time.

What's Included

- Secure messaging with your health coach 24/7 for questions or concerns
- A RevUp Care Hub at home that's easy to use and connected to your clinical team
- Connected devices like a blood pressure cuff, scale and pulse oximeter that keep track of your health
- An electronic record of your health status that is sent to your doctor once a month

RevUp is a Medicare Benefit

RevUp is a huge upgrade offered by your doctor, allowing us to monitor and support you at home and keep you in the best health possible.

Your RevUp enrollment specialist will give you details about your individual situation. RevUp is covered by Medicare Part B and the co-pay is usually covered by secondary insurance. There is no obligation or long-term contracts.

Emergency Response

Patients with the RevUp Care Hub also have the benefit of the emergency response service: in an emergency, just press the button on your watch pendant or RevUp Care Hub and you will be connected to an emergency response team who will stay on the line and get help.
